EDUCATION

University of Ottawa   **September 2023 – December 2027**
BASc in Software Engineering - CGPA: 8.2 (A-)   *Ottawa, Canada*

COURSEWORK

- Data Structures & Algorithms
- Responsive Web Design
- Introduction To Computing
- Introduction To Software Engineering
- Introduction To Product Development
- Computer Architecture
- Discrete Mathematics
- Digital Systems

PROJECTS

Clothing Landing Page | Web   **July 2024**

- A modern, responsive web application built with React.js and Vite, designed to showcase a fictional clothing brand. This project demonstrates a visually appealing landing page with interactive elements and a clean design. It was created as part of an application for a Shopify intern position, highlighting proficiency in front-end development and UI/UX design.

Business Management System | Java   **February 2024**

- Developed a Business Management System in Java, integrating object-oriented principles for efficient customer management (add, update, remove, list) and JSON-based data persistence upon exit.

PORTFOLIO

James Attia Portfolio

- Showcases various projects and skills, demonstrating proficiency in front-end development and software engineering principles.
